Energy Transfer, a Texas-based energy company founded in 1995 as a small intrastate natural gas pipeline company, is now one of the largest and most diversified master limited partnerships in the United States.

Strategically positioned in all of the major U.S. production basins, the company owns and operates a geographically diverse portfolio of energy assets, including midstream, intrastate and interstate transportation and storage assets. Energy Transfer operates nearly 125,000 miles of natural gas, crude oil, natural gas liquids and refined products pipelines and related facilities, including terminalling, storage, fractionation, blending and various acquisition and marketing assets in 41 states.

**Energy Transfer** operates approximately 28,400 miles of natural gas pipelines, 4,800 miles of natural gas liquids pipelines, 10,770 miles of crude oil pipelines, 2,200 miles of refined products and three storage facilities. Our midstream assets include approximately 40,000 miles of natural gas gathering pipelines and more than 62 processing, treating and conditioning plants.
