

South Hampton Resources, Inc.
Gulf States Pipeline

ABOUT GULF STATES PIPELINE

South Hampton Resources and Gulf States Pipeline Headquarters are located in Silsbee, Texas. We monitor and control over 32 miles of Liquid Natural Gas pipeline.

WHAT DOES GULF STATES PIPELINE DO IF A LEAK OCCURS?

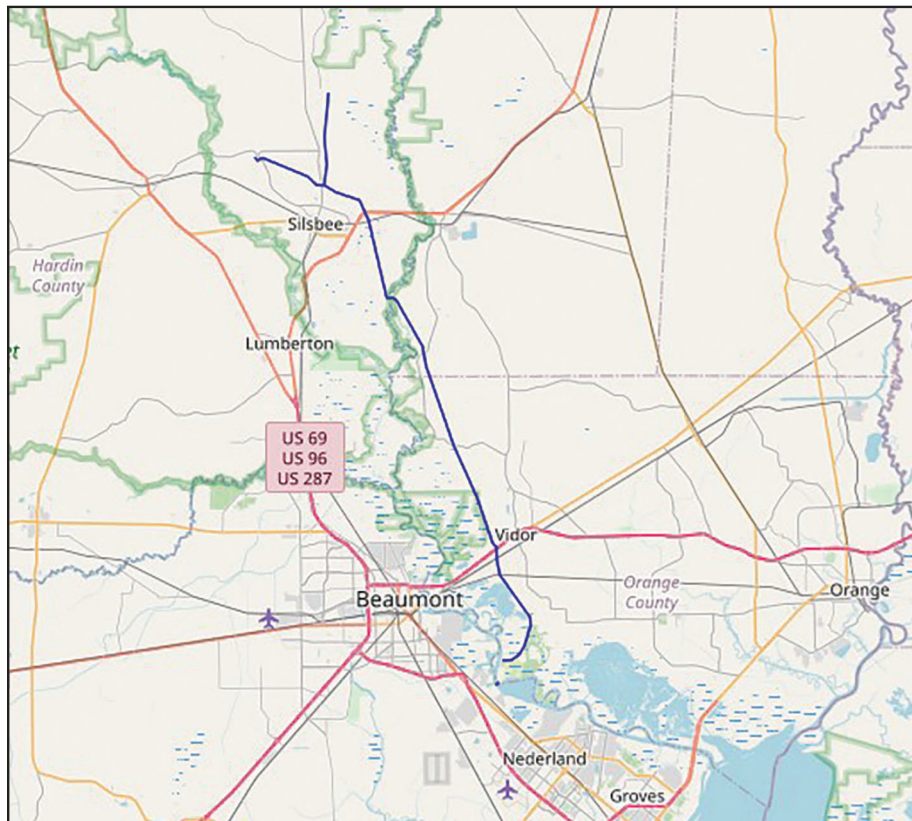

In case of a leak Gulf States Pipeline puts LIFE, ENVIRONMENT, and PROPERTY as our FOCUS. We report to all federal, state and local authorities and assist in every form along the way, from training to response to clean-up.

HOW TO GET ADDITIONAL INFORMATION

Visit our website at www.southhamptonresources.com.

PRODUCTS TRANSPORTED

PRODUCT	LEAK TYPE	VAPORS
NATURAL GAS LIQUID	Gas	Initially heavier than air, spread along ground and may travel to source of ignition and flash back. Product is colorless, tasteless and odorless.
HEALTH HAZARDS	Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite. Fire may produce irritating and/or toxic gases.	

EMERGENCY CONTACT: 1-409-385-8300
