EMERGENCY RESPONSE CAPABILITIES

COMMITMENT

Kinder Morgan is committed to the protection of the public and the environment through the safe operation and maintenance of its pipeline systems. Kinder Morgan’s qualified personnel are trained in emergency response activities and regularly participate in drills and exercises reflecting various types of response levels, emergency scenarios, topographic terrain and environmental sensitivities.

Kinder Morgan has committed the necessary resources to fully prepare and implement its emergency response plans and has obtained, through contract, the necessary private personnel and equipment to respond, to the maximum extent practicable, to a “worst case” discharge or substantial threat of such a discharge.

COMMUNICATIONS

Kinder Morgan utilizes its 24-hour Pipeline Control Center (1-800-633-0184) as a hub of communications in emergency response situations. The Control Center has a vast catalog of resources and capabilities. On-site communications are conducted using cellular telephones, 6GigHz analog 120

channel microwave radios (in Company Vehicles), portable Motorola Radios and/or land-line telephone systems from Company facilities and offices.

INCIDENT COMMAND SYSTEM

Kinder Morgan utilizes an expandable Incident Command System. Depending upon the size and complexity of an incident, additional Company or contract personnel may be added as needed. Additional federal, state or local agencies may be integrated into the Incident Command System by utilizing a Unified Command Structure.

SPILL RESPONSE EQUIPMENT

Kinder Morgan maintains emergency response drums and equipment at strategically located facilities. Drums contain spill boom (of various types, sizes and lengths as needed in different areas), sorbent materials, hoses, personal protective equipment, first aid and miscellaneous supplies.

For more information regarding Kinder Morgan’s emergency response plans and procedures, call Chad Arnold, Operations Manager, at 512) 247-6069.
