

**OUR OPERATIONS**

Safety, operational reliability and system integrity are the core of what we do.

We take many preventative measures to promote safe, reliable operations of our natural gas pipelines and related facilities, including:

- High-quality pipeline material, anti-corrosion coatings and cathodic protection (a low-level direct current to inhibit corrosion)
- Pressure testing of new and existing pipelines
- Inspection and preventative maintenance programs
- Monitoring of pipelines and related facilities
- Frequent aerial and periodic ground surveys of the right-of-way
- Remote control valves
- Emergency response preparedness training and drills for employees and third-party emergency responders

**DELIVERING ENERGY FROM WELLHEAD TO MARKET**

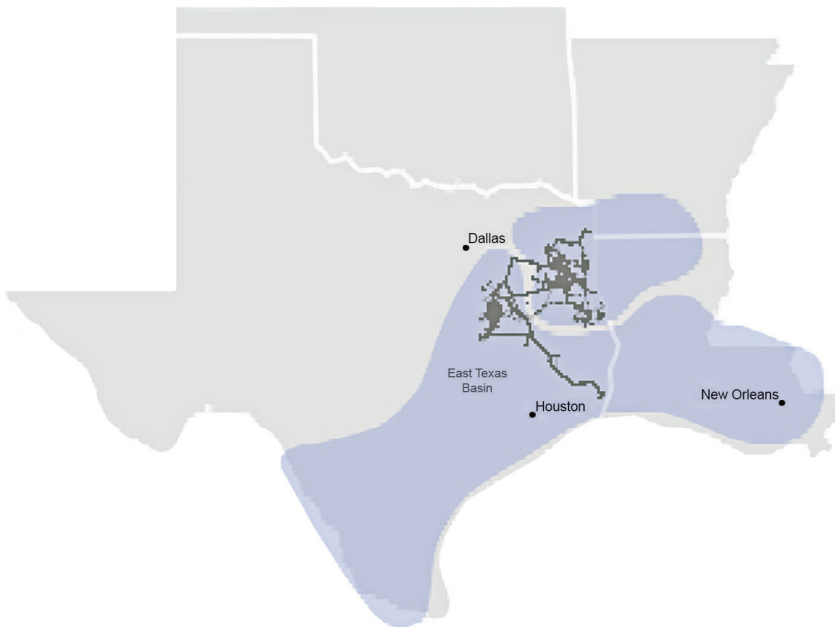

Midcoast Energy is a full-service natural gas and natural gas liquid (NGL) midstream business headquartered in Houston, Texas.

**East Texas System**

- 3,618 mi. of gathering and transmission pipe
- 5 processing plants
- 2 HCDP plants
- 1,500 mmcf/d processing cap

**READY TO DIG?**

Please call 811 to ensure your project is completed properly and safely.

**PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:**

Butane	1011	115
Ethane	1035	115
Gasoline	1203	115
Hydrogen Sulfide	1053	117
Liquid Natural Gas	1971	115
Natural Gas	1971	115
Propane	1075	115

**TEXAS  
COUNTIES OF OPERATION:**

Anderson	Morris
Camp	Nacogdoches
Cass	Navarro
Cherokee	Orange
Freestone	Panola
Gregg	Polk
Hardin	Robertson
Harrison	Rusk
Henderson	Sabine
Houston	San Augustine
Jasper	Shelby
Leon	Smith
Liberty	Trinity
Limestone	Upshur
Marion	Van Zandt

*Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.*

The Midcoast assets gather, treat, process and transport natural gas and NGLs. Midcoast systems connect established and growing gas-producing Basins from the East Texas Basin to the Gulf Coast Basin.
