

RW Miller Power LLC

ABOUT JACK COUNTY POWER LLC

RW Miller Power, LLC - A 576 MW gas/diesel fired facility consisting of three (3) steam generators and two (2) gas turbines. Pipelines in Palo Pinto and Erath counties TX, include (Huckabay Pipeline - beginning west of Huckabay and ending on the north side of lake Palo Pinto) 12" X 25.9 miles; and (Gordon Pipeline - beginning east of Gordon and ending on the north side of lake Palo Pinto) 12" X 9.9 miles.

WHAT DOES RW MILLER POWER LLC DO IF A LEAK OCCURS?

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency responders. Upon the notification of an incident or leak the pipeline company will immediately dispatch trained personnel to assist emergency responders.

Pipeline operators and emergency responders are trained to protect life, property and facilities in the case of an emergency.

Pipeline operators will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

RW Miller Power LLC invests significant time and capital maintaining the quality and integrity of their pipeline systems. They notify field personnel if there is a possibility of a leak. Shut-off valves are utilized to isolate a leak.
