ABOUT REMORA OPERATING, LLC

Remora Operating, LLC (Remora) is a privately held oil/gas company engaged in the gathering of natural gas in Texas.

WHAT DOES REMORA OPERATING, LLC DO IF A LEAK OCCURS?

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency responders. Upon the notification of an incident or leak, Remora will immediately dispatch trained personnel to assist emergency responders.

Pipeline operators and emergency responders are trained to protect life, property and facilities in the case of an emergency.

Pipeline operators will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

We believe it is our responsibility to be good neighbors and maintain a strong commitment to damage prevention and safety through the implementation of industry developed best management practices and monitoring of our operations. Our commitment extends to employees, contractors, local communities, and others who may be impacted by our operations. We conduct our operations in a responsible manner to protect human health and safety while minimizing environmental impacts.

HOW TO GET ADDITIONAL INFORMATION

**Know what's below.
 Call before you dig.**

BEFORE YOU DIG

Contact a Texas one call center by calling 811 or visiting www.texas811.org at least 48 hours in advance (two business days, excluding weekends and holidays) before you dig.

RECOGNIZING A LEAK

In the unlikely event of a pipeline leak: You might see, hear, or smell

- Dirt being blown into the air 
- Discolored vegetation 
- A white vapor stream or mist-like cloud 
- A roaring, blowing, or hissing sound 
- An unusual sulfur or rotten egg odor 

**EMERGENCY CONTACT:
 800-823-3036**

Natural Gas	1971	115

**TEXAS
 COUNTIES OF OPERATION:**

Duval Goliad

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

RESPONDING TO A LEAK

EVACUATE THE AREA IMMEDIATELY

- Abandon any equipment being used in the area
- Move upwind of the product release
- Avoid open flames
- Avoid introducing any sources of ignition
- Do not start or turn off motor vehicles or electrical equipment
- Call our 24 hour emergency number and 911

PIPELINE MARKERS

PRODUCTS TRANSPORTED IN YOUR AREA

PRODUCT	LEAK TYPE	VAPORS
NATURAL GAS	Gas	Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.
HEALTH HAZARDS	Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.
