

**ABOUT ROCKCLIFF ENERGY OPERATING, LLC**

Rockcliff Energy Operating, LLC is an independent exploration and production company headquartered in Houston, TX.

**WHAT DOES ROCKCLIFF ENERGY OPERATING, LLC DO IF A LEAK OCCURS?**

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency responders. Upon the notification of an incident or leak the pipeline company will immediately dispatch trained personnel to assist emergency responders.

Pipeline operators and emergency responders are trained to protect life, property and facilities in the case of an emergency.

Pipeline operators will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

**MAINTAINING SAFETY AND INTEGRITY OF PIPELINES**

Rockcliff Energy Operating, LLC invests significant time and capital maintaining the quality and integrity of their pipeline systems. Most active pipelines are monitored 24 hours a day via manned control centers. Rockcliff Energy Operating, LLC also utilizes aerial surveillance and/or on-ground observers to identify potential dangers. Control center personnel continually monitor the pipeline system and assess changes in pressure and flow. They notify field personnel if there is a possibility of a leak. Automatic shut-off valves are sometimes utilized to isolate a leak.

Gas transmission and hazardous liquid pipeline operators have developed supplemental hazard and assessment programs known as Integrity Management Programs (IMPs). Specific information about Rockcliff Energy Operating, LLC's program may be found on our Web site, or by contacting us directly.

**EMERGENCY CONTACT:**

**1-800-283-1791 or 1-318-459-2382**

**PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:**

Natural Gas 1971 115

**TEXAS**

**COUNTIES OF OPERATION:**

Gregg	Panola
Harrison	Rusk
Nacogdoches	Shelby

*Changes may occur. Contact the operator to discuss their pipeline systems, areas of operation, and emergency response plans.*

**PRODUCTS TRANSPORTED IN YOUR AREA**

**Product:** Natural Gas

**Leak Type:** Gas

**Vapors:** Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.

**Health Hazards:** Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.
