ABOUT SYDRI ENERGY, INC.

Sydri Energy Inc., located in Dallas, TX, is a jurisdictional natural gas gathering system. Sydri Energy’s pipeline system is located in Gregg, Panola, Rusk, and Upshur counties in the state of Texas.

WHAT DOES SYDRI ENERGY, INC. DO IF A LEAK OCCURS?

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency providers. Upon notification of an incident or leak, Sydri Energy will immediately dispatch trained personnel to assist emergency responders.

The pipeline operator and emergency responders are trained to protect life, property and facilities in case of an emergency.

Sydri Energy will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

Sydri Energy invests significant time and capital maintaining the quality and integrity of their pipeline systems.

Operator personnel continually monitor the pipeline system and assess changes in pressure and flow. Field personnel are notified immediately if there is a possibility of a leak.

Specific information about our program may be obtained by contacting us directly.

PRODUCTS TRANSPORTED

Product: Natural Gas

Leak Type: Gas

Vapors:
 Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.

Product Hazards:
 Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.

EMERGENCY CONTACT:
903-738-9484
