

# Vinton Pipeline, LLC

## ABOUT VINTON PIPELINE, LLC

Vinton Pipeline, LLC, is a natural gas transmission system in the village of Vinton Texas (El Paso Texas County).

## WHAT DOES VINTON PIPELINE, LLC DO IF A LEAK OCCURS?

We regularly communicate, plan and train with local emergency responders. Upon the notification of an incident or leak the pipeline company will immediately dispatch trained personnel to assist emergency responders.

## MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

We have developed our Procedure Manual for Operations & Maintenance; this procedure is in accordance with the applicable rules and regulations of the Railroad commission of Texas, Pipeline Safety Bureau. The purpose of this document is to outline the procedures for operation and maintenance (O&M Plan) necessary for the safe operation of the gas distribution pipeline system and procedures for handling gas emergencies.

Specific information about Vinton Pipeline procedures may be found by contacting us directly.

## PIPELINE LOCATION AND MARKERS

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information. Aerial patrol planes also use the markers to identify the pipeline route. Markers should never be removed or relocated by anyone other than a pipeline operator.

You can also find out where other companies' pipelines are in your area by going to the National Pipeline Mapping System website at [www.npms.phmsa.dot.gov](http://www.npms.phmsa.dot.gov).

## EMERGENCY CONTACT: 1-915-217-2938

**PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:**  
Natural Gas 1971 115

## TEXAS COUNTIES OF OPERATION:

El Paso

*Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.*

## PRODUCTS TRANSPORTED

**Product:** Natural Gas

**Leak Type:** Gas

**Vapors:** Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.

**Health Hazards:** Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.

## HOW TO GET ADDITIONAL INFORMATION
