COMMITMENT

WSP USA pipeline is committed to the protection of the public and the environment through the safe operation and maintenance of its pipeline systems. WSP's qualified personnel are trained in emergency response activities and regularly participate in drills and exercises reflecting various types of response levels, emergency scenarios, topographic terrain and environmental sensitivities.

WSP USA has committed the necessary resources to fully prepare and implement its emergency response plans and has obtained through contract the necessary private personnel and equipment to respond, to the maximum extent practicable, to a "worst case" discharge or substantial threat of such a discharge.

COMMUNICATIONS

WSP USA's Pipeline Control Center is a 24/7 operation that serves as a central hub for emergency response communications. It leverages various communication tools like cell phones, radios, and landline phones to coordinate on-site activities effectively. The 24Hr phone number to reach the control center is 1(409)-839-4400).

INCIDENT COMMAND SYSTEM

WSP USA utilizes an expandable Incident Command System. Depending upon the sizes and complexity of an incident, additional Company or contract personnel may be added as needed. Additional federal, state, or local agencies may be integrated into the Incident Command System by utilizing a Unified Command Structure.
